

Purchased/Salebarn Calves Vaccination Program

This schedule is intended as a general program. Every operation will require customization depending upon the genetics, health history, desired calving season, and the individual owner's goals.

Initial work-up

1. One Shot BVD
2. Inforce
3. Vision 7 with Somnus (Clostridium 7-way)
4. Deworm

Boosters 3-4 weeks later

1. Repeat Inforce or use Bovishield Gold product
2. Lepto vaccination on future replacement heifers
3. Vision 7 with Somnus (Clostridium 7-way)
